

PROGRESS REPORT 2:

NAME: Mayank Raj

SUBSYSTEM: Coding

DATE OF SUBMISSION: 01/01/2022

REPORTING PROGRESS FROM: 27/12/2021 – 01/01/2022

PROGRESS:

- **C++**
 1. Structures.
- **GitHub**
 1. Organized my Repository by adding folders.
(All this past week my dumbass was thinking sub-repository and folder meant the same, in short wasted a lot of time)
 1. Uploaded screenshots of tinkercad assignment question's circuit along with its code, in a folder named Tinkercad Projects.
- **Theory**
 1. Looked up how to connect motor driver with Arduino and motors.
 2. Read a bit about servo motor(positional).
- **Tinkercad**
 1. Completed Tinkercad worksheet.
 2. Struggled a bit with connecting sensors, led to Arduino but somehow figured it out.

Bonus: Retrieved some of my old Arduino codes which I sent to my brother via email. Email the saviour :)
